

## Keep kids entertained while travelling From <https://ineqe.com/about/>

Specialists in safeguarding and child protection both online and off.

Travelling can be stressful with early starts, flight delays and the nagging doubt that you left the oven on. You definitely don't need that chorus of "*are we there yet?*" and "*I'm bored?*" on top of everything else.

For a **quiet life** while travelling the **h2b Safer Team** have researched some interactive and creative apps to keep children in your care entertained.

**Please Note:** *None of these need WiFi to use, so download them in advance of your trip. They are suitable for children and young people of all ages, and are available on all devices.*

### THE APP TO DEVELOP SPATIAL SKILLS ...

In **Draw In™**, you are shown a shape and have to guess the length of the perimeter.

You progress if your line is too short but not if it's too long.

Easy to pass through the early levels!

REVIEW: *"This game is so great and creative, 50 year old's love it and 5 year old's love it! It is one of the most addictive games I've ever played. It's so simple so anyone can play."*

### THE APP FOR THE ARTIST IN YOUR CARE...

In **Blendoku 2**, you are given squares of colour and have to put them in order. For example, if you were given **Yellow**, **Blue** and **Green** then the order would be **yellow**, **green** then **blue** because green is the made from the other two colours.

REVIEW: *"This colour blending game is perfect for helping me to unwind. Some of the colour palettes are absolutely stunning and I get a real buzz from seeing how, say, green can become pink."*

### THE APP FOR THE WORDSMITH IN YOUR CARE...

In **WordTrip**, you are given some characters and have spaces to make words. For example; 'TPA' would make: Tap, Apt & At.

It's a great way to learn new words and test your spelling!

REVIEW: *"It's fun to travel the world! It's a good game for using the brain, especially as I do better with the longer words than the three letter ones!!! I'm learning new words all the time, some I have never heard of so then I have to refer to the dictionary!"*

### THE APP FOR THE BUDDING ENGINEER IN YOUR CARE...

REVIEW: *"I got this game for my five year old grandson... but mostly I play it!"*

In **LEGO: Creator Islands**, you tap piles of lego bricks to create elements of a car, or a building and then you put them together in order.

Working your way through the island until you have built everything!
